IMPORTANT INFORMATION

- Interest rates are correct as of the date of this Rate Sheet but are subject to change.
- Interest rates for Fixed Term Deposits will remain fixed for the term of deposit once the account has been funded.
- Accounts in process and/or not funded are also subject to interest rate changes. It is the customer's responsibility to complete the required documentation and fund the account within 7 days of application. If the Bank decides to change the interest rates, the rate you applied for will only be valid for 7 days from the date you submit your application.
- Early withdrawal charges apply for early withdrawals or closures. For more details please refer to the Personal Banking Terms and Conditions, and Specific Terms and Conditions section that applies to your account.
- If you have selected an interest payment frequency/option which is less than the term of deposit (i.e. monthly, quarterly or annually), the interest will be paid out to the nominated account provided at the time of opening. The interest is not added to your principal amount at the selected frequency.
- If you have selected interest payment frequency/option at maturity, the interest amount will be added to the principal at the maturity date. In this case, the Gross interest will be higher than the AER.
- UBL UK does not compound interest and interest is not added to your principal amount on any selected interest payment frequency.
- For interest rates above £1,000,000, please contact our Customer Services Team on 0121 753 6000.

Key Definitions:

- **Gross Interest:** The Gross interest rate is simple interest and will not be compounded annually. It is the contractual rate of interest payable before the deduction of income tax at the rate specified by law.
- **AER (Annual Equivalent Rate):** The AER illustrates what the true rate of interest would be if interest was paid and compounded each year. Please note that the actual interest rate, based on the interest payment frequency you choose, will be different than the AER advertised. If interest is paid more frequently than the actual rate applied would be lower.

Fixed Term Deposit Rates (GBP)

Term of Deposit	AER	GROSS
1 Month		
Interest Paid at Maturity	2.25%	2.23%
3 Month		
Interest Paid at Maturity	2.95%	2.92%
